To Whom It May Concern:

I, Darin Hepp, declare that the following statements are true and correct based on my personal knowledge and interactions with PF Lazor.

My name is Darin Hepp, and I live in Fremont, California. I am a student in high school. I was a volunteer in San Francisco at an animal museum, until I injured my knee playing baseball with my brother. When I heal up, I will be working at "Precicus Pets" in Fremont.

I have lived in Fremont and Newark my whole life (all 17 1/2 years).

I have known PF Lazor for about 12 years as a good friend. He helped make me what I am today. He helped my mom raise me before he was convicted. PF is a well-known responsible man, especially to me. He will always have my respect.

I remember one time when I was about 10 or 11 years old. My friends and I stole some candy and stuff from the store. We got caught one day, when my mom decided to go look in the shed out back where we had stored all the stuff. PF took me and all the stuff back to the store and made me return it.

I would have and still will testify in court about what a great man PF Lazor is.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.
