President

It's an injustice that a innocent person like PF. Lazor has been kept in prison for over 12 year. In all these years he has been treated very unfair by the justice system.

Timothy Lafranchi
Treasurer

Robert Parker
Secretary

I have known PF for over 16 years. He has always been a individual of honor. He has always has going out his way to help others. I have always remember PF as a great friend, with a amazing talent. He has always been involved in the arts; music, writing, and theater. Also as a citizen he was always willing to help in the community. He was very involved with the activities of the local church and willing to gave his help to the need ones.

I don't believe that a person like PF. should be in prison. He should be free to continue with his life and continue developing that unique talent that he posses. PF. is a great friend and a wonderful person. It's an justice that he has been kept in prison for so many years.
