RE: Grant Parole to PF Lazor, C-73842

This letter is my request to you to consider parole for PF Lazor.

I met Mr. Lazor approximately 15 months ago, at the suggestion of a friend. I have visited with him approximately eight times. During these visits we have had long and interesting conversations.

I do not have first hand knowledge of his purported criminal conduct and conviction. I can only go by what I see now, what I have observed during my several visits with him recently. His persona does not fit the violent criminal types that I have observed while visiting with him.

Mr. Lazor's hair is not long or shaved off, there are no tattoos, no medallions, all possible symbols of rebellion, anger, and antisocial behavior. To the contrary, I have found him to be pleasant and patient in personality. It is also obvious he is intelligent and educated about many subjects.

He has high aspirations and many goals. He would be a positive and beneficial member of society if not for his incarceration.

He has served his sentence years, plus additional years. What is to keep him from becoming a contributing member of our society?!

From a financial standpoint, it is a terrible waste to keep him confined. I understand it costs 70 thousand dollars per year, per inmate to house and feed them! And there must be hundreds of men and women like Mr. Lazor in CDC.

Set him free and ease the financial burdens to the Great State of California, and it is a given Mr. Lazor will only add to the tax payer base.

Let's join with our good governor, Mr. Schwarzenegger and make our state more efficient and better for every one.

Sincerly.

Rich Trecek
