

DANCE IN SPRING

1-1-15
(#1)

1. **Dance in spring, dance and sing
have a fling, give praise for everything.
Gone the snow, now we know
we so reap everything we sow.
Hope renewed, past reviewed
everything in our hearts and lives imbued
with new zeal, finally real
manifested in everything we feel.**
2. **Springtime came, just the same
as it does every season, laying claim
to renewal, unbroken rule
optimism's first emerging jewel.
Come what may, this is our day
let no circumstance get in the way
fits sublime, like perfect rhyme
we've arrived, our day ! Our time !**
3. **[REPEAT VERSE 1]**
4. **Dance on air, not a care
not a daunting thought here or there.
All at ease, in spring's breeze
overcome with all the things that please.
Love was right, even night
fills our souls and presence with its light
Hungers stilled, longings thrilled
every need, every yearning fulfilled.**
5. **[REPEAT VERSE 1]**

[INSTRUMENTAL]

6. **Winter's thawed, we applaud
the grand designs of our heartstrings awed.
Nothing feared, souls endeared
majesty of our hearts the world has mirrored.
All a gift, joy to sift
smiles from deep in our hearts uplift
All things nice, free of vice
and someone else paid our admission price !**

**[REPEAT VERSE 1 MIXED WITH INSTRUMENTAL,
AND FADE OUT]**

[END]
