

## LET THERE NEVER COME A DAY

4-18-14  
(#36)

1. **Let there never come a day  
when the smile of a child — wouldn't save you.  
Never get stuck in a place  
where a helping of grace — wouldn't do.  
Let there never be a time  
where your heart cannot find something kind — to say.  
And let the sun never set  
on a day you haven't yet,  
helped someone — on their way.**
2. **From the day we are born  
till our fleece is finally shorn  
by the shear — strife of life.  
May a day not go by  
that you shouldn't at least try — to do some good.  
Make the world a better place  
without a single day of waste —  
and give a helping hand as you can  
so at the end of the day — you can say  
you did your best, and all you could.**

### [INSTRUMENTAL]

3. **Through the hardship and strain  
loneliness and anguished pain — don't be blinded.  
By hopelessness and shattered dreams  
having prominence it seems — but look behind it.  
Overcome the bad with good  
knowing that you had withstood — even in the darkest night.  
Keep your courage, do what's right  
and keep on moving toward the light — until you find it.**

### [TURNAROUND]

4. **Let there never come a day  
when adversaries can say —  
you didn't treat your neighbor the best.  
Don't forget the golden rule,  
the most precious jewel — in your treasure chest.  
Never compromise *you*, put your heart in all you do  
and don't settle for less than what's just.  
And if you really want to live — you have to give,  
to give — you have to risk *everything* — by trust.**
